

Environmental Policy

Colorcorp Pty Ltd is a provider of digital print and display, with new design and prototype capabilities in Point of Sale (POS) and display solutions.

The senior management and staff of Colorcorp Pty Ltd are committed to managing the environmental impacts of their business, and strive to prevent pollution, minimise carbon emissions, and reduce waste arising from our own activities and those of our suppliers and customers, wherever possible.

The company demonstrates its commitment to becoming more sustainable by monitoring and improving our energy and raw materials consumption and have a target of sending zero waste to landfill. We are committed to developing an Environmental Management System in line with the requirements of ISO 14001:2015, and we continually review and improve our environmental management performance where possible for the size of company.

We ensure that our business complies with applicable legal requirements, and we are committed to preventing any potential environmental pollution arising from our activities.

Colorcorp Pty Ltd is committed to minimising the contribution it makes to climate change. In particular the company will:

- Identify, monitor and manage direct and indirect emissions of carbon dioxide and other greenhouse gases we produce
- Aim to minimise waste produced by our activities and increasing the amount of waste that can be recycled or reused
- Work to achieve a reduction in carbon
- Work with our suppliers to identify and limit emissions attributable to products we use on a regular basis
